

ESET vs. Avira

Protection

False Positives*

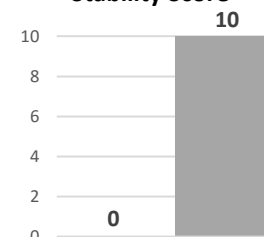

A false positive can cause serious problems. If an antivirus solution is configured to immediately delete or quarantine infected files, a false positive in an essential file can render the operating system or some applications unusable.

 False Alarm Test,
 March 2016

Performance

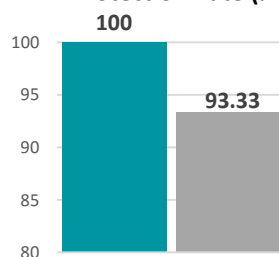

Stability Score*

According to an IT security survey 2015 by AV-Comparatives, low impact on system performance is important for 64% of participants. ESET promises to achieve excellent performance in a way that doesn't impact its customers' experience.

 VB100 Comparative
 Review on Windows
 Server 2008 R2,
 October 2015

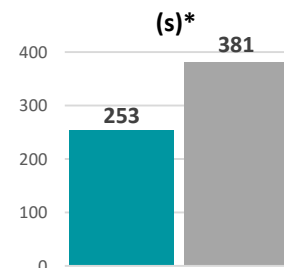

Protection Rate (%)

ESET's products are designed with built-in protection from the very beginning, and this test result proves that.

 Security Suites for
 Mac OS X: For on-demand
 detection, July 2016

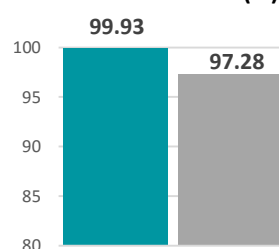

Loss on Performance

A number of factors play a role in slowing down endpoint startup – the age of the PC, battery health, number of applications, outdated hard drive, and CPU usage can all cause a PC's boot time to be slow. ESET reduces resource requirements to minimize the impact on system performance.

 Security Suites for
 Mac OS X: For on-demand
 detection, July 2016

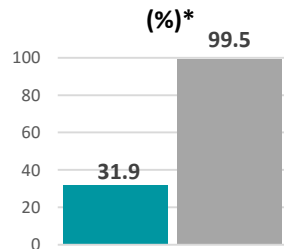

Detection Rate (%)

Computer Bild's detection rate when scanning without an Internet connection is based on testing using 7,179 samples. Avira reached the third worst detection rate without a connection in the test.

 February 2016

File Management

Anti-malware software impacts file management operations such as create, open, copy, and remove files. Avira has a significant impact on file management by doubling overall file management time.

ESET vs. Avira

Awards

VB100 Awards

Virus Bulletin, www.virusbtn.com,
05/1998 - 07/2016

Since May 1998, ESET has passed every test from Virus Bulletin in which it has participated, except one. Avira did not participate in 45 tests and failed a total of 5 times. ESET does not hesitate to prove its quality in public tests.

Total Proactive Advanced+ Awards

AV-Comparatives, www.av-comparatives.org,
05/2004 - 07/2016

ESET has been developing its heuristics engine since 1992. This is evident when looking at the amount of awards ESET has won compared to Avira.

■ ESET ■ Avira

"After missing just two out of more than 177,000 spam emails slipped through ESET's grasp – one of which to be broken. And that was all that went wrong, resulting in an impressive final score barely distinguishable from a perfect 100 – and of course another VBSpam+ award for ESET."

Virus Bulletin
VBSpam Comparative Review, March 2016

"ESET have continuously participated in our tests for a decade and we are happy to see ongoing commitment to product improvement."

AV-Comparatives
Anniversary Report, July 2015

*"ESET Endpoint Security: The package detected all the malware threats in the test, with almost no burden on the System."
"ESET demonstrated excellent performance when it came to detecting over 11,000 selected Windows malware threats."*

AV-Test
12 Security Suites for Mac OS X Put to the Test, July 2016

"We feel the Windows protection software is exceptionally well designed, with important information and functions easily accessible, but unauthorized access prevented."

AV-Comparatives
IT Security Products for Small Business, October 2015

ESET earns 'Top Rated' Award from AV-Comparatives

In addition to being named a *Top Rated Product*, ESET Smart Security 9 won the *Silver Award* in the False Positives category and the *Bronze Award* for Proactive Protection. The report highlights the improved graphical user interface (GUI) in ESET Smart Security 9, as well as its "excellent and comprehensive documentation."

ESET declared best security software in Germany

ComputerBild, one of the biggest IT magazines in Germany, and responsible for the most important antivirus tests in that country, published its latest Test Internet Schutzpakete results in February 2016. ESET Smart Security won the whole test and overcame both Avira Internet Security Suite and Avira Free, which ended up last in the test.
